RE/WORK

VELIER, is an innovative premium British rework brand dedicated to redefining circular fashion. Our mission is to transform high-quality vintage and preloved pieces into unique, timeless designs that celebrate individuality, sustainability, and modern UK craftsmanship.

Drawing on over 25 years of design and pattern-cutting expertise, our founder Ruthie Vout creates thoughtful edits in London, while our dedicated atelier team in Nottingham brings these visions to life. Each piece is carefully sourced, reworked, and modernized through fit and function, resulting in one-of-a-kind, sustainable luxury.

Every VELIER piece is one-of-a-kind, carrying its own unique story. It starts with the fabric — carefully sourced from preloved garments — and is then transformed through skilled craftsmanship into thoughtful, stylish, and sustainable designs. These creations are built to stand the test of time, offering not just fashion, but a legacy of conscious living.
